

DEFINITION OF WASTE: DEVELOPMENT INDUSTRY CODE OF PRACTICE

One day training course

Connectel Office, Stratford, London 26th February
Crowne Plaza Birmingham, 26th March
Crowne Plaza Manchester, 24th April
The Building Centre, London, 29th May
Crowne Plaza Birmingham, 17th June

Crowne Plaza Manchester, 23rd July
The Building Centre, London 17th September
Crowne Plaza Birmingham, 23rd October
Crowne Plaza Manchester, 19th November

Successfully and beneficially applied, bringing significant cost savings, of considerable value to those who have formerly used waste management exemptions and contributing to sustainable development!

Overview

The Code of Practice provides a streamlined mechanism for exiting the complex world of Waste Legislation for the re-use of excavated materials. It can be used beneficially and sustainably by individuals involved in development activities ranging from general earthworks to complex land remediation projects and is applicable to both Greenfield and Brownfield sites.

Since its introduction in September 2008, use in the industry has steadily grown, primarily driven by growing landfill costs, growing emphasis on sustainable development (including earthworks) and the removal of familiar and widely used waste exemptions. It is also increasingly being referenced in Planning Permissions and waste policy documents.

Version 2 of the Code of Practice was launched in March 2011 with an extended scope. The scenarios now covered are:

- Reuse of excavated materials on the site of production (contaminated and uncontaminated)
- Direct Transfer of clean naturally occurring soils
 - o Reuse of naturally elevated substances in soils e.g. arsenic, lead
- Cluster projects (multiple reuse at different development sites within a similar time frame)
 - o Brownfield to Brownfield transfers
 - o Fixed Soil Treatment Facilities allowing the release of treated materials to the market place

The course also looks at other industry and regulatory initiatives including WRAP Quality Protocol, Standard Rules Permits and the interaction with new waste exemptions e.g. U1.

Who should attend?

The course is aimed at all organisations involved with the development of land and therefore particularly relevant to the following groups who expect to use or work with the Code of Practice:

- Civil Engineering & Earthworks contractors
- On-site screening and sorting operators
- Specialist Remediation companies
- Haulage companies
- Demolition Contractors
- Fixed Soil Treatment Facility operators (including potential operators).
- Developers & Housebuilders
- Regulators
- Landowners
- Consultants

The course is also valuable to those who need to understand the applicability of the Code of Practice in drafting planning decisions, waste policy documents and how it fits within the Waste Hierarchy.

Attendance on a recognised training course remains one of the requirements for individuals wishing to register as a Qualified Person, however, it is also recommended for those who previously registered as a Qualified Person under Version 1 given the far greater scope (with associated limitations and boundaries).

Attendance on this course will ensure that delegates are kept updated on future developments with the Code of Practice and its application.

Facilitators

The facilitators are Ged Duckworth (GD Environmental Ltd) and Clive Boyle (CRB Environmental Ltd), both of whom have worked on the development, implementation and revision of the Code of Practice and are well placed to explain both the new scope and the opportunities offered by the current version.

Programme

09:15	Registration	14.15	Materials reuse scenarios (continued) 3. Cluster, including fixed Soil Treatment Facilities - Establishment and operation - Brownfield to Brownfield movement of materials
09:30	Introduction - Benefits of use and scene setting		
10:15	The Code of Practice - Principles and constants <ul style="list-style-type: none">• Brief overview of the Definition of Waste case law• The four 'factors'• Process• New Materials Management Plan template• Verification Report• Interaction with regulators	15:30	Tea and Coffee
11:30	Tea and Coffee	15:45	Case Studies and Exercise 2
11:45	Attributes and role of the Qualified Person	16:00	Exercise 3 – Review of a completed Qualified Person's Declaration
12:15	Materials reuse scenarios <ul style="list-style-type: none">1. Site of Origin2. Direct Transfer	16:20	Summary and final questions
13:00	Lunch	16.30	Close.
13:45	Case Studies and Exercise 1

Registration Form

I would like to register as a delegate for the Definition of Waste: Development Industry Code of Practice training course

Which location and date would you like to book: _____

I am a CL:AIRE Member ☐ Yes ☐ No ☐ Please send me details on CL:AIRE membership

Delegate Rate

- ☐ £295 + VAT - Public sector & Academics ☐ £395 + VAT - Private Sector
- ☐ £250 + VAT - CL:AIRE Members (Public sector) ☐ £335 + VAT - CL:AIRE Members (Private sector)
- ☐ £110 + VAT - Unemployed individuals (claiming Jobseeker's Allowance) & full-time students

Payment Details

- ☐ Please send me an invoice. Purchase Order No.: _____ ☐ I enclose a cheque made payable to CL:AIRE
- ☐ I would like to pay by BACS transfer. Account name: CL:AIRE Sort Code: 08-92-50 Account No. 65083622
Please send remittance advice via fax or email as confirmation.
- ☐ I would like to pay by card: Card Type _____ Card no. _____
Expiry Date _____ / _____ Start Date _____ / _____ Name of Card Holder _____
3 Digit Security no. _____ Issue no. (Switch/Maestro) _____

Invoice address if different from below: _____

Delegate Details

Title: _____ First Name: _____ Surname: _____
Job Title: _____ Organisation: _____
Email: _____ Telephone: _____
Address: _____

Signature: _____

Please send your completed form to: enquiries@claire.co.uk

Terms & Conditions - Registrations will be secured upon receipt of payment. Delegates booking more than 30 days in advance of the course date may request to be invoiced (subject to receipt of an official purchase order number at time of booking). Payment can be made by BACS transfer, by cheque or by credit card and full payment is required 30 days before the course date. **Delegates booking less than 30 days in advance of the course date must pay by debit/credit card at time of booking.** Cancellations received in writing 7 days before the course will be completely refunded. We regret that cancellations received after this date cannot be refunded, however delegates may be substituted up to two days before the course date. CL:AIRE withholds the right to change the venue and/or speakers at any stage, and to cancel or postpone any course due to lack of delegate numbers or speaker cancellations up to 7 days before the course date. **A minimum of 10 delegates have to attend each of the training courses in order for the courses to run.** If the course has been cancelled, delegates will be given the option of attending the same course within 1 year or having their delegate registration fee refunded. If the course has been postponed, joining instructions will be sent to the delegates confirming the new date and location. If delegates are unable to attend the re-scheduled date, their registration fee will be refunded upon receiving a written request. By completing and submitting this form you are agreeing to the terms and conditions above as well as those found on the CL:AIRE website at www.claire.co.uk
